Ceramic Tile and Stone Consultants

A National Service Company providing Job Problem Services, Quality Control Services for Product and Installation Methods, Training Programs, Market Research and Outsourcing Services, and Business Planning Consulting to the Ceramic Tile and Stone Industry.

On-Site Forensics

Investigation for Ceramic Tile and Stone Installation Failures – Will travel to job problem site to inspect, evaluate, and report findings.

Testing Provided

If required, complete testing services are available to help determine the nature and cause of a failure.

Reporting

As required, CTaSC can provide job site or over-the-phone verbal reports, brief written summaries, or formal Written Reports with photos and video clips as necessary.

Expert Witness

CTaSC is available to provide expert testimony for depositions or court testimony.

Mediation

CTaSC is available to be involved and to assist facilitating win win resolutions for job failures.

Solutions

CTaSC provides installation specifications, and can evaluate products and installation methods for suitability relative to the application for replacement of job failure installations.

Consultation

CTaSC provides consultation and advice regarding installation failures and solutions either over-the-phone or on-site.
