Summary

After graduating High School, I attended college and graduated with a B.S. in Business Management in 1995 and immediately went to work full time for Klaser Tile Co., Inc. I began in the field as a helper, worked up through the years from tile setter to job foreman, transitioned into the office in the year 2000 and began all estimating. Project management came next and before I knew it was V.P.- Operations. I have personally performed all of Klaser Tile's marketing, sales, estimating as well as oversee all projects from bid time to completion. I order all materials required, coordinate all labor required, and work with the field superintendent managing the installation process while always insuring quality.

In July 2015, I started Klaser Consulting, Inc., and on July 01, 2017 I joined Ceramic Tile And Stone Consultants, Inc. to work as a tile and stone expert My goal is to share my knowledge and experience of the ceramic tile and stone industry that I have gained over 20 years.
